

This class was very valuable in so many ways. It gave me processes to use to help people pass, as well as enabling me to clear issues I didn't even know I had. The teacher, Tomas, presented the material in a clear and concise manner, and his humor added a great dimension to a difficult subject. I liked best the ability to practice the processes we learned.

Marvelous! The processes were touching and beautiful. Thank you for your insight and wisdom. The workshop was empowering! I learned that we can assist those who are dying and their families. Also, that we can bring healing to those on the other side. The class was very complete.

Amazing! A form of this should be taught to children! Please write a book for children with these teachings! You are both amazing. I liked best the incorporation of exercises through the class.

Amazing. Powerful. Beautiful. Life changing in how I am now with life, all my relations, and death, and the whole life spirit cycle.

I liked best the great balance of brain / listening, to activity, to ritual, to experience, to amazing transformations. So well done, all of it! You are awesome at what you do!

Awesome! I have no words to express how honored and grateful I feel.

Teachers are amazing human beings and very knowledgeable on subject. We were taught the skills and then we practiced them. The full engagement was amazing and gave me confidence that I can do this with the great resources that were given in class. Everything was perfect. I'm so grateful.
